Course Description

Candidates learn content-specific instructional and assessment methods and plan, teach, and assess lessons that facilitate learning of important social studies knowledge, skills, and dispositions. Coursework will primarily address grades 5-12. Field work required. For Education majors only. (University of Portland Bulletin)

Course Rationale

ED 456 is intended as a bridge between theory and practice. In your previous courses and experiences, you have acquired new knowledge, skills, and dispositions that include understandings of how students learn and the ways in which schools function within a larger social context, the ability to communicate teaching goals through planned lessons, and an appreciation of the diversity of human backgrounds and needs. *This course will continue build your pedagogical knowledge and skills, while at the same time helping you to make educational decisions that put your knowledge, skills, and disposition into practice.*

You will write goals and objectives that articulate both state standards and your professional educational vision of what students should learn. You will learn and implement specific instructional strategies that will help students to achieve. And you will learn to organize a coherent unit of instruction that links your decisions about curriculum and instruction in ways that assist all learners to succeed.

In short, ED 456 will prepare you to be a successful social studies teacher—capable of articulating a personal philosophy of education that addresses the needs of a diverse population of students, designing and executing lessons that mirror this philosophy, and assessing the effectiveness of your instruction.

Assessment, Assignments, and Activities

For more information see course website <http://edmethods.com/classes>.

Course assessments are designed to provide you with opportunities to develop the knowledge and skills described in the objectives and to provide evidence that you have met them.

All School of Education courses include key assessments that are linked to program standards and provide program feedback for continuous improvement. When you complete a course assignment that is designated as a key assessment, you are required to upload that assignment to [Taskstream](#). Key assessments are indicated by the phrase “Key assessment for Taskstream submission” below.

All students enrolled in a School of Education course will have access to Taskstream and an account will be automatically created for them. The student’s username will be their UP email address, including the “@up.edu” at the end. For instructions on how to login to Taskstream for the first time, please [click here](#). For instructions on how to upload/submit a key assessment to Taskstream, please [click here](#). Please contact Chris Greene (greenec@up.edu or 503-943-8534) with any questions related to Taskstream.

Course Policies and Expectations

Assignments: Assignment sheets that include specific requirements, due dates, and scoring criteria will be distributed over the course of the term. Due dates will also be found on the course schedule. **All assignments**

are due on the specified date unless an extension is granted by the instructor in advance. One grade step (3-4% of the possible points for the assignment) may be deducted for each day that the assignment is late.

Attendance: Because this class is an extension of your student teaching experience, attendance and timeliness are required. Just as in the classroom, emergencies and illness may keep you from attending or being on time. *In these (hopefully) rare cases, you must contact me* in advance by voice mail or e-mail, or if this is impossible (a flat tire on the freeway, for example), as soon as possible. *Unexcused absences and excessive tardies will result in a reduction of your grade* (e.g., a 5% deduction for each unexcused absence). You may also be placed on a student teaching plan of assistance.

Academic Integrity: This is a major expectation of this and all courses taught at the University of Portland. Students are expected to complete all work and course expectations honestly according to the specifications of the instructor. Note: Field experience requirements, when applicable, are an integral part of the course and are a requirement for a passing grade in some courses. Hours are to be reported accurately and all forms should contain the appropriate signatures. Every student should review the sanctions for cheating listed in the bulletin to understand some of the consequences for inappropriate behavior. The consequences for failure to meet the expectations of academic integrity are harsh and are described in the University of Portland Bulletin.

University of Portland's Code of Academic Integrity:

Academic integrity is openness and honesty in all scholarly endeavors. The University of Portland is a scholarly community dedicated to the discovery, investigation, and dissemination of truth, and to the development of the whole person. Membership in this community is a privilege, requiring each person to practice academic integrity at its highest level, while expecting and promoting the same in others. Breaches of academic integrity will not be tolerated and will be addressed by the community with all due gravity.
